

RAISE INCUBATOR -

1st Floor, Innovation Cell, Steve jobs Building, RIT Campus,
Kuthambakkam post, Chembarambakkam Chennai – 600124.

About RAISE Incubator:

- Many students have creative ideas, but they often struggle with questions like:
 - How do I start a business?
 - How do I build a product?
 - Where will I get funding?
 - Who will guide me?
 - How do I reach customers?

- **RAISE Incubator, a sec 8 company (A not for profit company), inside RIT Campus aims to provides:**

- ✓ Guidance
- ✓ Infrastructure
- ✓ Mentorship
- ✓ Training
- ✓ Funding support
- ✓ Networking opportunities

to help startups (student's ideas) grow from an idea stage into a product/software (Website/Mobile application, Hardware products) which then scales into a business opportunity/stable company.

Vision & Mission – Innovation, Incubation & Entrepreneurship Ecosystem

Vision

- To create a vibrant innovation and entrepreneurship ecosystem that transforms ideas into impactful startups, fosters industry-relevant technologies, and nurtures socially responsible innovators.

Mission

- To promote innovation and entrepreneurial thinking among students and faculty through structured ideation, incubation, and mentoring support.
- To facilitate industry collaboration, intellectual property creation, and access to funding for sustainable startup development.
- To align institutional innovation initiatives with national and regional entrepreneurship missions for long-term societal and economic impact.

WHAT DIFFERENTIATES RAISE INCUBATOR?

- RAISE Incubator is different from regular incubators because it offers entrepreneurship as a structured academic course for RIT students. Students receive practical startup training, continuous mentorship, and support to become startup-ready. This ensures every interested student gets the opportunity to innovate and build a company.

Current Status of the Incubator (2026)

22 Active Incubated Startups	100% Student Founders	20+ Mentors Enabled	8 Sectors Represented
---	---------------------------------	-------------------------------	---------------------------------

- As of 2026, the incubator has multiple student startups working in different domains such as software platforms, hardware devices, AI-based systems, campus solutions, and social impact ideas. Most startups are currently in idea stage or prototype development stage, with a few moving towards MVP and commercialization.
- One of the major observations is that students are technically capable but require structured guidance in business model development, customer discovery, and product validation.
- Many teams require support in prototype funding and industry exposure which is where the structured course on entrepreneurship comes in.
- The incubator will focus on moving more startups from idea stage to prototype and MVP stage over the next two years.
- Awareness about the incubator has been created among all the students & faculties through orientation sessions & dedicated department coordinators are allotted for interdepartmental support.

Startup Portfolio Summary

Stage	Number of Startups	Remarks
Idea Stage	6 (HirEd, Authenticate, Ivanus, Customizer Consent, Soundscape, Yoovan AI)	Problem validation in progress
Prototype Stage	10 (HydrofarmIQ, Cropguard, RIT Printbot, Ecotrack, BeautifyNet, RIT Transport App, SafeHer Travels, Elroi Automations Pvt Ltd, Mishara, AgriNed Technologies, Authenticate)	Hardware/software prototypes under development
MVP Stage	2 (Atomik Minds, Innsole)	Testing with users
Commercialisation Stage	4 (RIT Billbot, Machty, Num Thozhan Pvt Ltd, Thrust.AI)	Early users / revenue stage
Total	22	Active incubated startups

Conclusion

- ✓ The long-term goal is to build a strong innovation and startup ecosystem within the institution where students consider entrepreneurship as a viable career path along with placements and higher studies.
